This is a Hi-Light Box.
The image is mounted on
a 1/4" MDF board then
centered on a 1"
Specially Matted Box

We can take this process to match
any of our wood grain edges and
apply to any of your digital images

Image courtesy of Judy Sanchez

All products are mounted on
sturdy MDF board using an
acid free mounting tissue
which helps keep the piece
from yellowing. The image is
then covered with our UV
protected coating to ensure
that the image will not fade.
This process produces a beautiful
non-glare Matte finish.

We not only present your digital photos on 10 distinctive styles with a choice of 37 edges....

We also produce digital photo processing that is...

OUT OF THE WORLD @ DOWN TO EARTH PRICES
